The splendid steamship Sa-
rah Sands, 1500 tons bur-
then, W. C. Thompson, comman-
der, will leave for Panama, touch-
ing at Acapulco, on
about the 15th of May next. This ship is
unsurpassed in her cabins for convenience
and comfort, and every arrangement has
been made on the most liberal scale. The
steamer has been fitted with regard to the
comfort of passengers. A separate table
will also be provided for them. The Sarah
Sands will be followed, on or about the
15th May, by the steamship New Orleans,
of 1200 tons. The above ships will run in
connection with the Atlantic boats, Cres-
cent City and Empire City. Through tick-
ets from San Francisco to New York, by
way of Panama and Chagres. Rates of
fare: San Francisco to Panama—First cabin
\$300; second cabin \$150. Chagres to
New York—After saloons \$125; forward
saloons \$100; lower cabin \$80. Passage and

STEAMER SENATOR. Through to Butte City, Trin-
ity, Diggins, Yuba City, Marysville and
Luna. Shortest and most direct route to
the mines.
The steamer Senator will leave as usual
from her berth at Clark's Point, every
Tuesday, Thursday and Saturday after-
noons at 4 p. m., for Sacramento City—
connecting there with the steamer Star for
Butte City, the head of navigation on the
Sacramento river, and only a short distance
from the celebrated diggings on Trinity
river; also with the steamers Linda and
Lawrence, which proceed up the Feather
and Yuba rivers to Linda City—the point
most immediate to the mines.
The keel and speed of the Senator, and good
accommodations of these steamers, renders
this the shortest and most convenient route
for persons going to the different mines.

DEMOCRATIC NOMINATIONS.—The names of the candidates for officers to complete the organization of the county government are now placed before the party, and the election will be held to-morrow—leaving but a single day to prepare for the contest. Our candidates, so far as we know, are good men, and it needs but an united effort on the part of the Democracy to ensure their election. We have no space for extended remarks, even were they necessary; and all we need say is to urge every Democrat to vote, and vote early. Do this and all will be well.

FROM SACRAMENTO CITY.—By Hawley & Co.'s Express we received at ten o'clock last evening a copy of the Sacramento Transcript of the same day, which we find filled with most interesting intelligence from that city and the northern valley. The occupation of our columns by the Message of the Mayor, and the Council proceedings, precludes us from copying several important items.

An account is given of several murders of whites by the Indians, about 20 miles above Auburn, on the North Fork, which led to retaliation by a party of 20 Americans, the Indians losing a large number, 25 dead bodies being found. It was believed that many others were concealed or carried off. Among the dead were found a woman and child. A meeting was held at Auburn on Monday, for the purpose of enrolling a company to pursue and further chastise the hostile Indians. We shall give further particulars to-morrow.

Mining Intelligence.

The following items in relation to the southern mines are gleaned from the Stockton Times.

Several recent and important discoveries have been made on the Mokelumne. Out of one hole three men in two days took out the sum of \$4000. Some large lumps have been found, and nearly every man is making an ounce a day.

A large emigration is setting towards the Calaveras mines, among whom are many from the northern mines. Near San Antonio a new placer has been found, and here miners are making two ounces per day.

Murphy's New Diggings on the Stanislaus are yielding well. All persons who work are making fair average wages.

Seven or eight miles above the town of Sonoma another fresh discovery is recorded. Hundreds are flocking to the spot. Indeed, the whole country lying between the Stanislaus and Tuolumne rivers is rich in golden treasure. This was abundantly proved last season.

Recently, in the Mariposa country, a lump weighing seven pounds was found just below the surface of the ground.

These evidences of the prosperity of those who have embarked their interests in this auriferous region are truly gratifying, not merely as the evidence of their own good fortune, but as indicative of vast benefits that must flow therefrom to San Francisco.

First Trip of the Gold Hunter.

This elegant steamboat made her first trip to Sacramento City on Wednesday, leaving this place at 7 o'clock, A. M. and reaching Benicia in two and a half hours. Unfortunately she got aground in passing through the slough, and was detained five hours. There was a large party on board, and the gallant captain, assisted by his officers, "performed well his part," amid the flow of wine and sentiment.

The Gold Hunter is 170 feet in length, 29 feet beam, and has two engines of 80 horse power each. Her officers are—Kenney Couillard, captain; Joseph Spiny, jr., first officer; E. K. Shel, purser; Wm. A. Bird, jr., clerk; John Yates, engineer. The trip down was performed in six hours to Benicia, and three hours more to the city, against a strong head wind and tide, thus proving her speed to be excellent. The excursion was a pleasant one, but which the crowded state of our columns will not permit us to speak of more particularly.

The Gold Hunter will leave for Sacramento City at 10 o'clock this morning.

THE WAVERLY PARTY.—This splendid reunion took place last evening. The ladies attended numerously, the supper was of the best, (oysters at that) and wines most recherche.

Common Council.

BOARD OF ALDERMEN.

Pursuant to adjournment, the board met. President in the chair. The minutes of the previous two regular and special meetings being read, were approved.

The clerk of the Mayor of the city appeared before the Board, and handed to the President a Message from His Honor the Mayor. After the clerk had finished reading that document on motion of Ald Stuart, it was accepted.

On motion of Ald Gillespie, the different subjects of the Message were referred to the proper committees.

The reports of the Comptroller and Treasurer were received and referred to the Committee on Finance.

The report of F. D. Kohler, Chief Engineer of the Fire Department, was received, and after being read and approved of, was referred to the Committee on Fire and Water.

Alderman Stuart, chairman of the Committee on Salaries, reported as follows for the offices named, viz:

Mayor	\$10,000 per annum.
Recorder	9,000 "
Comptroller	6,000 "
Marshal	9,000 "
City Attorney	4,000 "

The committee reported \$3,000; but on motion of Ald. Selover, (concurring in by the committee, the salary of that officer was increased \$1,000.

The consideration of all other salaries was postponed till next Monday evening. An ordinance was reported from the Board of Assistant Aldermen, in reference to filling vacancies in either branch, by holding elections in joint session. After some discussion, rejected.

On motion of Alderman Selover, a special committee of two was appointed by the President, to inquire into the eligibility of Alderman Gillespie to hold a seat in this Board. Alderman Selover and Alderman McInture were appointed.

The Committee on Ordinances reported the following ordinances, to go into effect three days after publication, viz:

1. On protection of the city against fire.
2. On buildings or tents encroaching on the streets.
3. On the powers and duties of Harbor Master.
4. Obstructing sidewalks, &c.
5. On the proper observance of the Sabbath.
6. On the extinguishment of fires.
7. On drunkenness.
8. To prevent riots and unlawful assemblies.
9. In relation to wharfage at foot Sacramento street.
10. In relation to Assessors.
11. As to the time in which actions must be brought for infringing city ordinances.

On motion of Alderman Selover, on the above becoming laws, they shall be published two weeks in the Pacific News and Alta California newspapers.

On motion, the Board went into the election of Sergeant-at-Arms; and on the first ballot, Wm. C. McCormick was unanimously elected.

Mr. Gallagher was re-elected City Guager, and F. H. Southworth unanimously re-elected Inspector of Weights and Measures.

On motion, the Clerk was authorized to purchase stationery, &c. for the use of the Board.

After transmitting the above business of the session to the Board of Assistants, the Board of Aldermen adjourned.

ASSISTANT ALDERMEN.

The President announced the Standing Committees, as follows:—

On Finance—Wilson, Botts, Morris.

Fire and Water—Maynard, Shannon, Van Ness.

Markets—Corbett, Van Ness, Wilson.

Police, Prison and Health—Maynard, Corbett, Morris.

Public Buildings—Van Ness, Botts, Morris.

Streets and Wharves—Morris, Shannon, Wilson.

Ordinances—Botts, Maynard, Wilson.

Public Schools—Shannon, Morris, Wilson.

Ald Wilson reported rules for the government of the body which were adopted. The Message of the Mayor was announced. After its reading by the secretary, on motion it was ordered to be printed in the three daily papers of the city.

A resolution was offered by Ald Wilson and unanimously adopted, to afford all needful facilities to members of the press for reporting their sayings and doings.

On motion of Ald Maynard, vacancies in either Board were authorized to be filled by the Boards in joint ballot.

The several ordinances sent in by the upper Board for concurrence, were referred to the proper committees, to be reported upon at the next meeting.

Adjourned to Monday evening at 7 o'clock.

PUBLIC SCHOOL AT STOCKTON.—

A public school is about to be established at Stockton, under the superintendence of Mr. Charles M. Blake. Mr. C. M. Weber, in the spirit of true philanthropy, furnishes the building. Thus we trust ever to see the cause of education keeping pace with the march of physical improvement.

CHAMBER OF COMMERCE.—The members met last evening, at the store of Melius, Howard & Co. Talbot H. Green was called to the chair, and the following ticket elected:

President—Wm. Hooper.

Vice Presidents—F. W. Macdonay, T. H. Green.

Committee of Appeals—J. J. Chanviteau, G. B. Post, T. Shillaber, W. H. Tilghast, J. W. Osborn, W. H. Stowell.

The following gentlemen compose the Arbitration Committee—For the month of May—J. W. Austin, Samuel Brannan, J. W. Bingham, H. A. Breed, G. L. Cooke.

THE MAYOR'S MESSAGE.

Gentlemen of the Common Council:

It is a subject of hearty congratulation to ourselves, as well as to every citizen of San Francisco, that we are at length permitted to organize a municipal government under a Charter guaranteed by the Legislature of California in strict accordance with the Constitution of the State. And it is no less a source of satisfaction that the sphere of our usefulness will not be circumscribed by a code of laws written in a language unknown to the vast majority of the people, and of so complex and imperfect a character, as to be but indifferently understood by those best acquainted with the language in which it is written. We have for our direction and government, statutes similar to those under which we have been tutored, and given in terms so full, clear and precise, that the humblest citizen may clearly understand their full intent and meaning.

Being the first officers of the municipality elected under the Charter, the responsibility of its proper government rests upon us; and it is therefore incumbent upon us to unite in the enactment and execution of such ordinances as will be most conducive to the public interest; which, while they will secure to each citizen full protection of life, liberty and property, will esteem all within the just and proper limits of equity, and thus secure and afford to the humblest all the rights and privileges of citizenship which are enjoyed by the most elevated and wealthy.

We have entered upon our duties at a period when much distress and consternation prevail among our citizens, occasioned by the destructive fire which we have so recently been visited. This circumstance suggests the necessity of speedily making every possible provision against the repetition of such disasters. The proper organization of an efficient fire department, and the procuring of suitable and sufficient fire apparatus, are among the most important means to be adopted. And the construction of buildings in such a manner as most effectually to protect us against the rapid spread of a conflagration when it has commenced, will doubtless claim a share of your attention.

The careful revision of the City Ordinances passed by the late Town Council, and the enactment of such others as in your judgment may be necessary for the proper government of the municipality, is especially recommended as one of your first duties. Some of the ordinances now in force are no doubt inconsistent with the provisions of the Charter, and in some cases they are crude, and bear unequally upon different classes of our citizens.

But acting as that Town Council did, without a Charter or any established law for their government; without any practical experience in municipal legislation; and under peculiar circumstances arising from the social and political condition of this country, it would be a matter of wonder if the records of their action did not in some cases bear witness to the fallibility of human judgment. But having been intimately associated with the gentlemen composing that body since their election to power by the people of San Francisco, I feel it to be a duty to myself, and justice to them, to say, that in my opinion they were actuated by an earnest desire to promote the best interests of this city, and have used the power confided to them by their fellow citizens, in the honest performance of the duties imposed upon them by the same authority.

Your legislative duties will be difficult and arduous. You have not only to pass all necessary ordinances for the regulation of each department of the city government, but to fix the salaries or emoluments of the municipal officers, and to provide ways and means for their payment; for the indispensable improvements of the city; and for the payment of all just debts now due by the city.

The power to levy taxes and impose burdens upon the people is one which should be most delicately and carefully exercised. Equal and exact justice should be meted to all, and especial privileges granted to none. And in no case should a greater amount be drawn from the pockets of the people than is absolutely necessary for an economical administration of the government, and for the construction of such public improvements as are absolutely required to meet the necessities of the city, and to secure its permanent welfare.

The most careful revision of the ordinances regulating license is respectfully recommended. The great increase of the business of the city, and the extension of business among the vessels in the harbor, which in many instances are used as places of storage, from which goods are sold, wholesale and retail, render it, in my opinion, but just and equitable, that, as they enjoy the same privileges, and receive protection by the same laws, they should pay the same license as those who are engaged in similar pursuits upon the land. Each branch of business should be relieved of as much of the burden under which it now labors as would be consistent with the public interest with the privileges enjoyed. And after a careful estimate of the necessary and indispensable expenses of the government for the current year, a tax should be imposed upon real estate and personal property sufficient for all needful appropriations to meet such expenses, and to liquidate every just demand against the municipality.

Another subject for your consideration is that of affording the shipping in the harbor the greatest possible facilities for discharging their cargoes. There is not an individual in the community, who, in this particular, is not more or less interested. Indeed, the prosperity of the city and of the entire State, depending upon our commercial transactions, every measure that may tend to facilitate these, must prove a general benefit to the country and of immense advantage to San Francisco. We have suffered much from the present difficulties attending the landing of goods from vessels. Besides the slow and tedious process of lightering, by which a ship is

detained for weeks and even months, that with proper means could be discharged in a few days, the actual expense of mere lightering, sometimes equals the entire amount of freight from the Atlantic ports to our harbor. This difficulty may be removed by the completion of the public wharves, at which vessels of any tonnage may haul up and discharge their cargoes as speedily as in other commercial towns. To meet the expense that would thus be incurred, the instalments due upon the water lots already sold might be collected and appropriated, and the water lots still unsold be disposed of and the proceeds employed.

The want of a supply of pure water, even for the ordinary purposes of life, is severely felt in this city, and when to this the fact is added that there is not a single well or pump upon any public street or square, and that scarcely a gallon of water can be procured for the supply of fire engines, it will readily be perceived that an imperative necessity exists for the establishment of wells, pumps and cisterns upon the public streets and squares of the city. The circumstances attending the calamitous fires of the 4th instant and the 24th of December last, clearly prove that could a reasonable supply of water have been obtained, when the fires were first discovered, they would have been extinguished, even without the use of engines, before any material damage had occurred. I therefore earnestly recommend the immediate establishment of wells and pumps upon the public squares and streets of the city, and of large and sufficient vats or cisterns upon the shores of the bay, at or near the termination of the streets running perpendicular thereto, which would be filled at the flowing of the tide, and remain so during the ebbing. This would at all times secure an ample supply of water for the lower part of the city, in the event of fire in that quarter. The pumps and cisterns could be constructed at the intersections of the different streets, to be paid for by a tax imposed upon the property in their vicinity; and they should be put under such management as to ensure their usefulness in case of fire.

Whilst we are making provision to meet the necessities of the citizens, we should also, as far as possible, endeavor to add to their sources of enjoyment. To this end it is recommended that Portsmouth square be so improved that it will be made a favorite place of resort as well as an ornament to the city. It should be enclosed with a neat fence, and the grounds so laid out as to form convenient walks, within which grass plats and ornamental trees should be kept at all seasons in a flourishing condition. In the centre an Artesian well might be so constructed as to add greatly to its value, comfort and beauty. By boring the earth to a sufficient depth, a fountain of pure, fresh water would be let loose, and everlastingly flow to meet the wants and delight the view of the visitors. The square thus improved, instead of presenting a desolate and dreary spot, would become an oasis in the heart of our city, where the weary could find refreshment, and all classes of people obtain healthy recreation, pastime and amusement. Moreover, the construction of a well, as above proposed, with a fountain and pool as its necessary adjuncts, might be made one of the most useful objects in the city, as well as a neat and handsome ornament. A building might be erected on each side of the pool, each sufficient for the accommodation of a fire engine and its apparatus, which would always be at hand in the hour of need, to convey the means of safety to property in every portion of the town. Should the expenditure of an Artesian well be successful in Portsmouth square, similar constructions might be effected in other parts of the city, which for utility and beauty would excel almost any other improvement that could be accomplished.

That no means may be left untried by which the city can be effectually watered, the City Engineer should be directed to make an experimental survey of the ground between the city and Mission Creek, and such other sources of water as may be found in the neighborhood, and to report at an early day the practicability of watering the city therefrom, and giving an estimate of the cost.

The experience of the past year clearly proves the necessity for the immediate establishment of a permanent "grade of the streets, and that the most prompt and efficient means be adopted to regulate and improve them before the beginning of the rainy season. This suggestion applies especially to some of the principal streets, which during the past season were almost impassable, and are at this time in but little better condition, except that they are now dry. The work of grading, plankering or McAdamizing the streets, erecting public buildings, supplying the city with water, and for all other purposes, should be let by contract to the lowest bidder who could give approved security for the faithful performance of his contract. By giving timely notice, inviting competition, adopting the contract system, and conforming rigidly thereto, no doubt can be entertained of the most favorable results to the public interests.

The embarrassed condition of the finances of the city will render inexpedient for the present the erection of such buildings as are desirable for the use of the Courts and the judicial and other public authorities. With but little expense, those already provided may be made, for the time being, to answer every needful purpose. A proper place for securing criminals in safe custody is indispensable for the welfare of the city; and this object may be successfully accomplished by slight alterations and improvements upon the prison brig "Euphemia."

Commodious and well arranged market-houses are greatly needed, and it is desirable that at least two establishments of this character should forthwith be constructed in the most convenient and central locations. Judiciously erected, these markets, instead of being an expense to the corporation, may be rendered a source of considerable income. The money derived from the

rent of stalls would justify whatever investments might be made, and thus a two-fold advantage would be attained. The citizens would be better supplied with much less difficulty and cost than at present, with the necessary articles for domestic consumption, and the interests of the city in a pecuniary point of view be materially promoted.

In some parts of the city an offensive effluvia is constantly arising from the off thrown from slaughter houses, the carcasses of animals, and collections of various descriptions of decomposing substances, and as these are nuisances alike prejudicial to the comfort and health of the citizens, it is trusted you will take early steps for their removal, and for a proper supervision of the streets generally.

The great danger that occurred from the frequent explosions of powder and fire-arms, during the late disastrous fires, is sufficient to warn us that there should be no unnecessary delay in providing safe depositories for the former. If, however, any citizens should provide themselves with buildings perfectly fire proof in the less populous parts of the city, it might be proper to license them for the sale of that article, and to prohibit the keeping of it in other places by a heavy penalty.

During the last nine months an expense of eighty thousand dollars has been incurred for the support of the sick and destitute, who have been thrown penniless upon our shores, and found friendless and homeless in our streets, and for the burial of those who have died without sufficient means to defray the expenses of their interment. If these enormous expenditures are continued, and it is evident from the rapid growth of the population, that they must seriously increase, unless some new system be adopted, it will readily be perceived that a very large portion of the revenue of the city will be absorbed in defraying the expenses of the hospital department alone. Something therefore must speedily be done to remedy this great drain upon the public purse. And I would advise the appointment from your body of a special committee, whose duty it shall be to take this subject under consideration, and suggest the best and most economical mode of providing for the needy and afflicted who are or may become dependent upon the public for support.

In view of the fluctuating character of a great portion of our population; the constant changes that are occurring in business operations; the frequent transfers of property; the endless improvements being effected, and the empty state of the treasury, I would recommend to you the propriety of instructing the city assessors to make quarterly assessments of all taxable property within the limits of the corporation.

You will not neglect to pay especial attention to the organization of such a police force as the peace and good order of the city demand. Men of correct morals and sound integrity should carefully be selected to perform the duties of this department. Under the guardianship of such men only can our citizens repose in confidence or reasonably expect security. For the more perfect accomplishment of these ends a night watch will be found of indispensable importance, and I would therefore recommend its appointment.

For the comfort, convenience and safety of the inhabitants, I would also recommend that the city be lighted at night by means of lamps distributed at proper intervals along the most frequented thoroughfares.

The Reports of the Treasurer and Comptroller were received at a very late hour, and are herewith submitted. The financial condition of the city is as follows:

Amount on second instalment of April 3d, 1850.....	\$23,049 00
Amount on third instalment, due July 3d, 1850.....	107,602 00
Amount on fourth instalment, due October 3d, 1850.....	107,602 00
	\$238,253 00

The report of the Comptroller, up to May 8th, 1850, shows the present liabilities of the city, including the purchase of the City Hall, to be.....\$199,174 19

Excess over liabilities.....\$39,078 81

As yet no provision has been made for the permanent establishment of public schools, or for the proper education of the youth of our city; and as this is an object of the highest importance, it is recommended to your most favorable consideration. The lasting welfare of the community must depend upon the intelligence and correct morals of the people. No country was ever known to enjoy continued prosperity among whose inhabitants vice and ignorance prevailed, and comparatively few parents will be induced to make this city their place of residence until the proper means are adopted by which their children may be educated in a manner that will qualify them for future usefulness in life. Whilst the destitution of these means is now deterring hundreds of families from locating in this place, their adoption would soon bring among us a class of people—wives and children—whose very presence would tend to diminish immorality and vice, and give to our city those social and domestic charms the absence of which is now so generally deplored.

With a full sense of the high responsibilities under which we act, and an eye single to the satisfactory fulfilment of the duties devolving upon me, the foregoing are presented for your mature deliberation. And I pledge you my most cordial co-operation in the execution of any laws or ordinances you may enact calculated to advance the interest, and promote the permanent prosperity of the city of San Francisco.

JOHN W. GEARY, Mayor.
San Francisco, Mayor's Office, City Hall,
May 9, 1850.

FOR OREGON.—The splendid propeller Carolina is advertised to leave for Oregon on the 15th inst. She is a capital vessel, and has made the quickest trip of any steamer around Cape Horn.

LATER FROM CHINA.—Hong Kong papers have been received to the 30th January, at Honolulu. From the Poly-nesian of April 3d, we copy the following news:

The Island of Hong Kong and its dependencies has been erected into a Bishop's See and Diocese, to be called the Bishopric of Victoria, and the Rev. George Smith, D. D., is to be ordained and consecrated Bishop of said See. The colonial church is henceforth to be known as the Cathedral Church of St. John, in the city of Victoria.

The head and hand of the murdered governor of Macao, has been restored to the Portuguese authorities, upon their surrender of the three Chinese prisoners at the barrier, after the murder of Gov. Amarel.

A considerable force has been ordered to Macao, and the new governor, Commodore Da Cunha, is now on his way from the Brazil with a corvette. The frigate stationed at Goa, has also been ordered to Macao.

There is nothing of note in the files we have seen; a large number of vessels are reported in the Chinese waters destined to all parts of the world, and among others several up for California.

The Poly-nesian, of Honolulu, of April 8th, says:—"We cannot help remarking what a benefit a small steamer would be to this port, as a towboat and a coaster, as then vessels might enter and depart at any time, without the inconvenience of lying two or three weeks inside or outside. But we hope to see one here before many months."

DIED.

PORT OF HONOLULU, April 6th.
The change in the wind has enabled a large part of the vessels in the harbor at our last date, to leave, and during Tuesday and Wednesday last, six vessels left this port for San Francisco, some of which have taken considerable quantities of produce, which would have been far greater and the demand more constant, were they produced more extensively. Especially is this true of sugar and coffee, the most ordinary kinds of which ranged, at latest advices from San Francisco, from 15 to 18 cts per lb.—*Pulynesian.*

FOR ASTORIA, Oregon Territory.—The Pacific Mail Steamship Company's steamer, *Carolina*, will be dispatched for the above place, on Wednesday, May 15th.

NEW DAILY Evening Paper in San Francisco—Robert D. Foy proposes to establish a daily newspaper in the city of San Francisco, to be issued every afternoon. The design of the paper will be to afford a reliable medium of information on all subjects of general and local interest; also to give full and accurate commercial and shipping intelligence up to the hour of publication each day. In a commercial community like ours, the utility of an evening paper, that will place the transactions of the day before the public immediately, must be apparent.

While the principal aim will be to give to the patrons of the proposed paper all the advantages of a strictly business publication, it should be understood that on questions of a political character, it will always be found a decided advocate of the principles and measures of the great democratic party of the Union.

The first number will appear on or about the 25th day of June next.

Terms.—\$25 per annum, when delivered to city subscribers at their residences, or \$20 when mailed—payable in advance. Advertisements inserted at the usual rates. exli f

RARE CHANCE—A New Hotel to Let, in a superior location, and borders waiting sufficient to fill it as soon as open. The subscriber has nearly completed his hotel over his store in Sacramento street, having very pleasant and spacious apartments, sufficient to accommodate 14 couples and 40 single persons.

Every convenience will be added, and boarders may feel that they are but little short of New York, Philadelphia or Baltimore in point of comfort. A piano forte has been purchased and placed in the building. A portion of the rent will be taken in board; and any gentleman and lady who will take the premises, and keep a genteel house, can obtain it for a fair low rent. Will also rent his store, 20 by 64 feet, with a sure and profitable business already established. A portion of the business requires no capital, which portion alone, will pay the rent. G. H. Beach, cix tf Sacramento st.

NEW STORE on Sansome street. The subscribers having purchased and made alterations in the building formerly occupied by Mr. Wissell as a hotel, are now prepared to supply the wants of their customers more fully than can be done at any other store in this city. We are constantly receiving from the States and intend to keep at all times on hand, a full assortment of clothing, furnishing goods, boots and shoes, hats and caps, fancy goods, guns and pistols, powder, shot and caps, blankets, mining tools, trunks, carpet bags, &c. &c., and shall endeavor to live up to our old motto of "large sales and small profits."

Persons going to the mines will find this the most convenient place to get their supplies, as it is near the landing, and every thing they require can be bought here at the lowest prices.

ELECTION NOTICE.

STATE OF California, county of San Francisco, ss.—In pursuance of the provisions of an act passed by the Legislature of this State, on the 11th day of April, 1850, entitled, "An act concerning Officers," it is ordered and determined that said county be districted and divided as follows:

The First District to be constituted of all that part of the county lying northwardly of a line commencing on the bay of San Francisco and running through the centre of clay street to the western boundary of said county.

The Second District to be constituted of all that part of the county lying southwardly of the said line through clay street.

It is further ordered that two Justices of the Peace and one Constable be assigned and elected for each of said townships, and a county Attorney be elected for the county at large, at an election to be held on the 11th day of May, instant.

The poll of the first district to be held at the Graham House.

The poll of the second district to be held at the yellow house on the south side of California street, and between Kearny and Montgomery streets.

Each of said polls to be opened at eight o'clock, a. m., and closed at the setting of the sun.

The order for said election, made on the first day of May, instant, is hereby rescinded. Dated, San Francisco, this 7th day of May, 1850.

Roderick N. Morrison,
County Judge.

EMPIRE CITY.

For Sonoran Camp, Wood's Diggings, Sullivan's, Hawkins' and Don Pedro's Bars, head waters of Tuolumne, Merced, and Mariposa Rivers; also, to head waters of San Joaquin and King's River. FREIGHT or PASSAGE TO EMPIRE CITY, TUOLUMNE, DUREE & TOWNSEND have established a daily line of sailing vessels from San Francisco to the above city, situated on the south-easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the San Joaquin, and is not only accessible by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that region, avoiding soft roads, expensive ferriage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & co., foot of Jackson street, San Francisco, or to the subscribers, Empire City, Tuolumne. April 29, 1850. cxxvii tf Duree & Townsend.

EMPIRE AND CRESCENT CITIES.

The survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Crescent city, and adopt one quite as appropriate, if not so beautiful. Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southeasterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Duree, Edwin D. Townsend, Wm. J. Marcy, W. H. Willson, Joseph E. Miller, Wm. M. Rowlett, Thomas J. L. Smiley, David Turner, Edward S. Townsend, Edward Conway, Henry E. Perrine, J. B. Lattimer. cxxvii tf

LEONARD & TAY offer for sale at the lowest market prices—Mess and prime pork, mess beef, barley, chili, annular in sacks. Am. do in bbls, hams, lard, cheese, butter in small kegs, brown and white sugars, molasses, coffee, pilot bread, soda and butter crackers in tin boxes, green and black tea, raisins, dried apples, candies, saleratus, soap, pickles, vinegar and salt, with a variety of other articles in the provision and produce line, all of the best quality, and in desirable packages—which they request miners and others desiring to purchase, to call and examine at their store, foot of Washington street, fronting the bay. cvii tf

DELACOURT BLYTH has removed from foot of Washington street to No. 244 west side montgomery st, brick house known as Howard Hotel, 3 doors from Jackson street, where, to his former business of importer of iron mongery and other American and English manufactures, he has added an assortment of provisions, groceries, and other goods of general consumption in this market, and those of the mining districts.

A good billiard table for sale. Two upper stories of Howard House for rent. Highest market price paid for gold dust. cxxvii t

TO Lense for five years. Two lots very advantageously situated on Kearny and Pacific streets, twenty feet by sixty-nine feet on Kearny st, and twenty by fifty-seven and a half feet on Pacific st, fronting the Graham house, with a good new two story house in the rear of both lots, containing four rooms besides office and store room; the whole property is well adapted for a large wholesale house, and will be let in whole or in part to suit the applicant. Apply to H. O. Donnell, notary public, Kearny and Pacific sts., opposite the Graham house. lxxviii tf

EARL, Mackintosh & co. Wholesale Dealers in Provisions, have removed to the first proof store, corner Washington and Montgomery streets, and offer for sale 1000 sacks chili flour, 200 bbls mess pork, 100 half do do, 100 chests gunpowder tea, 2000 lbs refined lard in tins, 500 cases claret wine, 100 sacks rice, 2000 lbs hams, sardines, pickles, &c.
